ACTIVITY BOOK PAGE 63

EXERCISE 1

1 Complete the comments.

~~cricket~~ ~~robot~~ ~~environment~~ ~~melting~~ ~~microchips~~ ~~rainforests~~

Flora says:

I think Science will be the most important subject at school. When I'm an inventor I'll find ways to stop the ice ¹ melting in the Arctic and help the ² environment. And I will save the animals and trees in the ³ rainforests!

Cory says:

I think I will be an inventor when I am older. I go to a Science club on Saturdays and an inventor is helping us to build a ⁴ robot. The robot has got lots of ⁵ microchips inside it. It's fantastic!

Ollie says:

I will be a sports person in the future because I love practising sport. I love cricket. I hope I will play ⁶ cricket in the British team. I think I will be in the British team if I practice every day!

EXERCISE 2

How do you think things will change? Make notes. (Free answers)

EXAMPLE:

I will be an astronaut.

Why? Because I think that everybody will travel to other planets in the future, discover and explore new planets, participate in important missions, work for the NASA in USA.

EXERCISE 3. Complete the post

In the future I will be an important and famous astronaut because the technology will be more advanced than today and I will discover new planets and I also will explore them to find water and good conditions to live in. I will participate in the most important missions in the world and I will work in the NASA in USA. It will be fantastic!
